Gudur, Andhra Pradesh, India | +91-8886733060 | geyamruthapoluru@gmail.com | linkedin.com/in/geyamrutha-poluru | github.com/geyamrutha16

PROFESSIONAL SUMMARY

Full-stack (MERN) developer with production-grade internship experience, including 8+ merged pull requests to CARE, an open-source healthcare platform, and end-to-end delivery of a secure, multi-role REST API platform. Strong foundation in data structures and algorithms (TCS CodeVita global rank 4,113). Seeking Software Engineer / Full-Stack Developer roles to build scalable, production-grade systems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive/Mobile-First UI

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Role-Based Access Control (RBAC)

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, Cloudinary, Twilio API, Render, Netlify

Concepts: SDLC, Agile/Scrum, API Integration & Testing, Data Structures & Algorithms, Open-Source Collaboration

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer Intern — Pupilfirst (Open Healthcare Network / CARE) Jun 2025 – Oct 2025

- Shipped 8+ merged pull requests to CARE, an open-source healthcare capacity-management platform, resolving form-validation, premature button-activation, and stale error-state bugs in production code.
- Closed 9 GitHub issues end-to-end (triage → fix → PR → review), including whitespace-only input validation, missing autocomplete attributes, and mobile layout misalignment.
- Collaborated asynchronously with senior open-source maintainers via GitHub Issues and code reviews, iterating through 3+ review cycles per PR to meet strict code-quality and accessibility standards.

Full Stack Developer Intern — Infosys Springboard Sep 2025 – Dec 2025

- Built CampusEventHub, a multi-role inter-college event management platform, engineering 12+ REST API endpoints in Node.js/Express covering event creation, college-wise categorization, and participant management.
- Enforced JWT authentication and role-based access control across all secure routes, eliminating unauthorized access to admin and organizer endpoints.
- Performed end-to-end API validation for 12+ backend endpoints using Postman, verifying authentication, data validation, error handling, and response consistency across services.

PROJECTS

NREACH — Attendance SMS Notification System

- Built a full-stack attendance-tracking and parent-notification system integrating the Twilio API to deliver SMS alerts to parents in real time, with delivery-status logging and retry handling.
- Implemented JWT authentication and RBAC for 2 roles (Admin, Operator) plus OTP-based student login, and added PWA offline support with 4-language localization (English, Telugu, Hindi, Tamil) to improve parent accessibility.

App-Point System — Student Points & Certificate Platform

- Developed a full-stack student participation management system with role-based access (Admin, Operator, Student), event registration, dynamic forms, and participation tracking across 8 activity categories.
- Built an automated QR-based certificate generation and verification system using unique IAC identifiers, Cloudinary storage, and secure digital certificate validation.

Coder's Arena & NIPUNA2K24 (College Fest Website)

- Designed and deployed two responsive platforms — a coding-club community site and a college fest site — serving event, resource, and schedule information to students across desktop, tablet, and mobile.

EDUCATION

B.Tech in Computer Science — Narayana Engineering College, AP | CGPA: 9.4

2022 – 2026

ACHIEVEMENTS & CERTIFICATIONS

- Ranked 4,113 globally in TCS CodeVita Season 12, demonstrating strong problem-solving and DS&A skills.
- Winner, NASA NSS Space to Art Contest 2024 — created the award-winning concept "Cosmic Classroom."
- Vice President, Coder's Club — helped lead a 10-member technical community and organize coding events.
- Certified: Postman API Fundamentals — Student Expert.
