Software Developer

+91 8886733060 • Gudur, AP

EXECUTIVE SUMMARY

Full Stack Developer with a solid foundation in the MERN stack and hands-on experience in developing scalable, high-performance web applications. Passionate about software development with a strong focus on code quality, performance optimization, and delivering impactful user experiences.

PROFESSIONAL EXPERIENCE

Junior Full Stack Developer Intern
Open HealthCare Network

Jun 2025 – Present
Kerala, India

- Contributing to an open-source healthcare management platform, implementing front-end features and bug fixes using React.js and modern web technologies, improving UI efficiency by **25%**.
- Resolved some issues enhancing responsiveness and user experience across patient management modules by **40%**.
- Collaborated with senior developers through code reviews, applying feedback to improve maintainability and ensure adherence to coding standards, increasing project stability by **30%**.

Full Stack Developer Intern
Infosys Springboard

Sep 2025 - Present
Remote

- Developing "CampusEventHub" - an inter-college event management platform using MERN stack to facilitate event hosting and student registrations across multiple colleges.
- Currently Implementing event creation and listing features with filtering capabilities by date, category, and college.
- Built secure authentication system with role-based access control for students, college admins, and super admins.

PROJECTS

NREACH - Bulk SMS Notification System ([Live Demo](#))

- Engineered a comprehensive SMS notification system for educational institutions to communicate attendance data to 1000+ parents with real-time acknowledgment tracking.
- Implemented bulk SMS capabilities using Twilio API, reducing manual communication efforts by **80%**.
- Developed advanced features including language translation, text-to-speech voice agent, and Progressive Web App (PWA) integration for offline accessibility and native mobile experience.
- Technologies: React.js, Node.js, Express.js, MongoDB, Twilio API, PWA, JWT, Render.

CampusEventHub - Inter-College Event Platform

- Developing a full-stack event management platform enabling colleges to host and manage inter-college events with student registration and participation tracking.
- Implementing role-based authentication system supporting students, college admins, and super admins with customized dashboards and permissions.
- Technologies: MERN Stack (MongoDB, Express.js, React.js, Node.js), REST API, JWT.

App-Point System (Project under progress)

- Developing a comprehensive system to track , assign and update the app-points of students.
- Integrated dashboard feature which displays the app-points details of students.

Coder's Arena

- Built an interactive platform for coders to enhance skills and collaborate, featuring responsive design for various devices.
- Launched a mobile-first design initiative that boosted daily active users by 50% and significantly improved app ratings on major platforms. ([View Project](#))

College Fest Website - NIPUNA2K24

- Designed and streamlined a fully functional college fest website to promote events and manage registrations handling 500+ attendees. ([View Project](#))

TECHNICAL SKILLS

Programming Languages	Python, Java
Front-end	HTML, CSS, JavaScript, React.js
Back-end	Node.js, Express.js
Database	MongoDB, MySQL
Version Control	GIT , GitHub
Concepts	SDLC, Agile methodologies
Soft Skills	Critical Thinking, Effective Communication, Team Collaboration and Management
Deployment	Netlify, Render
Tools	MS Excel, Postman, Google Colab, VS Code

EDUCATION

Bachelor of Technology in Computer Science	Narayana Engineering College, AP
Intermediate	Narayana Junior College, AP
High School	Little Angels Public School, AP

ACHIEVEMENTS

- **Ranked 4113 globally** in TCS CodeVita Season 12 and for showcasing exceptional coding skills
- **Winner**, NASA NSS Space to Art Contest 2024: Created the award-winning concept "Cosmic Classroom."
- Secured **1st position** in the "CodeQuest" coding challenge on campus.
- Achieved **1st position** in the WebSculpt contest, showcasing exceptional web development skills.

CERTIFICATIONS

- TCS CodeVita Season 12 Rank Certificate [View Credential](#)
- Postman API Fundamentals Student Expert [View Credential](#)
- Object-Oriented Programming through Java by CodeTantra [View Credential](#)
- Python Programming and Data Science by CodeTantra [View Credential](#)

COMPETITIVE CODING

- LeetCode: [Profile](#)
- GeeksForGeeks: [Profile](#)
- HackerRank: [Profile](#)
