Software Developer

+91 8886733060 • Gudur, AP

EXECUTIVE SUMMARY

Software Developer with hands-on experience in building full-stack web applications using the MERN stack (React.js, Node.js, Express.js, MongoDB). Experienced in REST API development, JWT-based authentication, role-based access control, and database design.

EDUCATION

Bachelor of Technology in Computer Science

Narayana Engineering College, AP [2022-2026]

Intermediate

Narayana Junior College, AP [2020-2022]

High School

Little Angels Public School, AP [2019-2020]

TECHNICAL SKILLS

Programming Languages

Python, Java

Front-end

HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive UI

Back-end

Node.js, Express.js, REST APIs, JWT Authentication

Database

MongoDB, MySQL

Version Control

GIT, GitHub

Concepts

SDLC, Agile methodologies, Debugging, Data Structures, API Integration

PROFESSIONAL EXPERIENCE

1) Infosys Springboard

Sep 2025 - Dec 2025

Role : Full Stack Developer Intern

Responsibilities :

- Developed CampusEventHub, a MERN-based inter-college event management platform. Built REST APIs using Node.js + Express.js for event creation and college-wise categorization.
- Integrated React frontend with backend APIs using Axios and React Hooks. Implemented secure user flows using JWT Authentication and role-based access.

2) Open Healthcare Network (CARE)

Jun 2025 – Oct 2025

Junior Full Stack Developer Intern

Kerala, India

Responsibilities :

- Contributed to the **CARE open-source healthcare management platform** by identifying, fixing, and closing multiple frontend issues in production-grade codebases.
- Implemented UI/UX improvements and bug fixes using **React.js**, addressing form validations, button alignment, error state handling, and mobile responsiveness.
- Resolved real-world issues such as improper validation handling, premature button enablement, stale error messages, and accessibility-related autocomplete warnings.
- Actively collaborated with senior developers through **GitHub issues, pull requests, and code reviews**, incorporating feedback to improve code quality and maintainability.

PROJECTS

NREACH : Bulk SMS Notification System ([Live Demo](#))

- Built a bulk SMS system to notify parents about student attendance with real-time delivery tracking.
- Integrated Twilio API, designed MongoDB schemas, and implemented JWT-secured APIs.

- Added PWA offline support and multilingual notifications to improve accessibility.

VERIFYPOINT : App-Point System (Phase2 developement is going on)

- Developing a comprehensive system to track , assign and update the app-points of students.
- Added Integrated dashboard feature which displays the app-points details of students.
- Built protected routes using JWT and implemented CRUD APIs for point management.

CODER'S ARENA : Coder's Club Portfolio Website ([Live Demo](#))

- Designed and developed an interactive portfolio platform for a college coding club to showcase events, resources, and community initiatives.
- Implemented a fully **responsive UI** to ensure seamless usability across desktop, tablet, and mobile devices.

NIPUNA2K24 : College Fest Website ([Live Demo](#))

- Developed a fully functional college fest website to showcase events, schedules, and announcements.
- Implemented user-friendly interface to ensure smooth access across all devices.

ACHIEVEMENTS

- **Ranked 4113 globally** in TCS CodeVita Season 12, demonstrating strong problem-solving and coding skills.
- **Winner**, NASA NSS Space to Art Contest 2024: Created the award-winning concept "Cosmic Classroom."

CERTIFICATIONS

- TCS CodeVita Season 12 Rank Certificate [View Credential](#)
- Postman API Fundamentals Student Expert [View Credential](#)
- Object-Oriented Programming through Java by CodeTantra [View Credential](#)
- Python Programming and Data Science by CodeTantra [View Credential](#)
