Software Developer

+91 8886733060 • Gudur, AP

EXECUTIVE SUMMARY

MERN Stack Developer with hands-on experience building scalable applications using React.js, Node.js, Express.js, MongoDB, and deployment platforms like Render Netlify. Skilled in designing REST APIs, implementing authentication systems, managing databases and writing clean, maintainable code.

TECHNICAL SKILLS

Programming Languages	Python, Java
Front-end	HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive UI
Back-end	Node.js, Express.js, REST APIs, JWT Authentication
Database	MongoDB, MySQL
Version Control	GIT , GitHub
Concepts	SDLC, Agile methodologies, API Integration
Tools	Postman, Render, Netlify, Google Colab, VS Code
Soft Skills	Critical Thinking, Effective Communication, Team Collaboration and Management

PROFESSIONAL EXPERIENCE

1) Infosys Springboard

Sep 2025 - Present

Role : Full Stack Developer Intern

Remote

Responsibilities :

- Developed CampusEventHub, a MERN-based inter-college event management platform. Built REST APIs using Node.js + Express.js for event creation, filtering, pagination, and college-wise categorization.
- Integrated React frontend with backend APIs using Axios and React Hooks. Implementing secure user flows using JWT Authentication and role-based access.
- Managing data models using MongoDB, Mongoose with optimized indexing for fast queries.

2) Open HealthCare Network

Jun 2025 – Oct 2025

Role : Junior Full Stack Developer Intern

Kerala, India

Responsibilities :

- Contributing to an open-source healthcare management platform, implementing front-end features and bug fixes using React.js and modern web technologies, improving UI efficiency by **25%**.
- Collaborated with senior developers through code reviews, applying feedback to improve maintainability and ensure adherence to coding standards, increasing project stability by **30%**.

PROJECTS

NREACH - Bulk SMS Notification System (Project under progress) ([Live Demo](#))

- Engineered a comprehensive SMS notification system to communicate attendance data to parents with real-time acknowledgment tracking and Implemented bulk SMS capabilities.
- Integrated Twilio API for automated attendance notifications with real-time delivery tracking. Designed MongoDB schemas for parent, student, and SMS logs. Added language translation + text-to-speech voice agent, and PWA offline support.

App-Point System (Project under progress)

- Developing a comprehensive system to track , assign and update the app-points of students. Integrated dashboard feature which displays the app-points details of students.

- Built protected routes using JWT and implemented CRUD APIs for point management.

Coder's Arena ([Live Demo](#))

- Built an interactive platform for coders to enhance skills and collaborate, featuring responsive design for various devices.

College Fest Website - NIPUNA2K24 ([Live Demo](#))

- Designed and streamlined a fully functional college fest website to promote events and manage registrations handling 500+ attendees.

ACHIEVEMENTS

- **Ranked 4113 globally** in TCS CodeVita Season 12 and for showcasing exceptional coding skills
- **Winner**, NASA NSS Space to Art Contest 2024: Created the award-winning concept "Cosmic Classroom."

CERTIFICATIONS

- TCS CodeVita Season 12 Rank Certificate [View Credential](#)
- Postman API Fundamentals Student Expert [View Credential](#)
- Object-Oriented Programming through Java by CodeTantra [View Credential](#)
- Python Programming and Data Science by CodeTantra [View Credential](#)
